

Target Sprinkler System Runtimes (Watering Two Days Per Week)

In order to grow healthy turf, water deeply and infrequently. It is better to water your lawn no more than two times per week.

In the heat of the summer, add another cycle instead of adding another watering day.

	May	June	July	August	September
Hunter®	2 cycles of 18 min ea.	2 cycles of 25 min ea.	3 cycles of 28 min ea.	4 cycles of 28 min ea.	3 cycles of 25 min ea.

	May	June	July	August	September
Rain Bird®	2 cycles of 10 min ea.	3 cycles of 14 min ea.	4 cycles of 16 min ea.	4 cycles of 16 min ea.	3 cycles of 14 min ea.

These are "**target**" cycle times. If it's cooler, water less. If it's hotter, you may need to water more.

When it rains, turn your system off! Save Money. Save Water.
